

Greetings! I'm reaching out to all registered users of the Cropland Grazing Exchange. Thank you for signing up and taking a look at this service we've designed. I hope you've found it to be useful. With all new programs we've experienced our share of glitches and growing pains but I'm happy to say that the program is right where we expected it to be after one year.

We currently have over 120 registered users of the CGE and there are over 40 points on the map. In order to keep the service relevant it is essential that you do your part to keep your information updated. At this time I'm asking you to log into the Cropland Grazing Exchange website and update any fields or livestock herds you've entered. Even if nothing has changed please at least log in to your account so I can tell that you're still actively monitoring your account. **On May 15, 2018 I will remove any points on the map associated with an account that has not been logged into since the first of the year. To keep your fields and herds active all you need to do is log into your account.**

[Cropland Grazing Exchange log-in](#)

If you've forgotten your password or have trouble logging in please reply to this email (**do not "reply all"**) and I can help you gain access.

Finally, I would appreciate it if you would take about two minutes to complete a survey about the Cropland Grazing Exchange. Your feedback will help us understand how the service is being used and improve its performance and our outreach efforts. The survey can be found at: <https://www.surveymonkey.com/r/L8NFZXH>

Additionally I'd welcome any feedback or questions via email. Thank you!
